

JOHN RUSSEL S. MONTAÑO

IT College Instructor | Website Creator for Small Businesses | Basic IT Support

Oton, Iloilo, Philippines • 09814115447 • jrmontano@usa.edu.ph

PROFESSIONAL SUMMARY

Information Technology graduate and IT College Instructor at the University of San Agustin in Iloilo, Philippines. Skilled in basic website creation, IT support, research, documentation, data entry, and online business support. I help small businesses create simple, clean, and functional websites for their stores, including business information pages, product or service sections, contact details, social media links, and basic website layout. With experience as a working student, on-the-job trainee, and college instructor, I have developed strong discipline, communication skills, professionalism, and the ability to explain technical concepts clearly.

CORE SERVICES

Simple website creation for small businesses	Store website layout and content organization	Product and service page setup
Business profile and contact page creation	Basic IT support	Web research and data entry
Document preparation and formatting	Canva-based simple designs	Academic and technical support
